

## ARTHANITI

(ISSN 0976 – 7479)

### INSTRUCTIONS TO AUTHORS:

- The Arthaniti considers manuscripts for publication on the understanding that the submitted paper represents an original work not previously published, or being considered for publication elsewhere. The Journal has the copyright to all its published articles.
- Manuscripts accepted for review are blind refereed. In this context, the authors are advised to write papers in a way to keep their identity hidden from the referees. The first page of the article should not reveal the name(s) of the author(s). The contact information should be given in the cover page only. The cover page is to be a separate page and not the first page of the article.
- **Manuscript should be submitted to [arthaniti.cu@gmail.com](mailto:arthaniti.cu@gmail.com) .**
- Manuscripts should be in English and between 4,000 and 8,000 words (15-30 pages). They should be double - spaced and 12 font. They should be typed in MS-WORD.
- The *cover page* should include the author's name, institutional affiliation, and the title of the paper. **Please include the contact person's full address, phone, fax numbers and e-mail address.** Include the name(s) of any sponsor(s) of the research contained in the paper, along with grant number(s).
- The *first page of the article* should contain the name of the article, an abstract of up to approximately 100 word, at least one classification code according to the JEL Classification and five keywords.
- Only essential mathematical notations should be used. All equations and statistical formulae should be neatly typed and numbered consecutively throughout the text in Arabic numerals.
- Footnotes should be kept to a minimum and numbered consecutively throughout the text with superscript Arabic numerals.
- References should be quoted in the text as name and year within brackets and listed at the end of the paper alphabetically. Where reference is made to more than one work by the same author published in the same year, identify each citation in the text as follows: (Johansen, 1988a), (Johansen, 1988b). Where references include three or more authors the form (Johansen et al., 1988) should be used in

the text. All references must be complete and accurate. Online citations should include date of access. If necessary, cite unpublished or personal work in the text but do not include it in the reference list. References should be listed in the following style: Johansen, S. (1988): Statistical analysis of cointegrating vectors, *Journal of Economic Dynamics and Control* 12, 231-254. World Bank. (1994) *Adjustment in Africa: Reforms, Results and the Road Ahead*. Oxford University Press, New York.

- Tables should be numbered consecutively in the text in Arabic numerals and printed on separate pages.
- Illustrations. Supply each illustration on a separate sheet, with the lead author's name and the figure number, with the top of the figure indicated, on the reverse. Supply original photographs; photocopies or previously printed material will not be used. Line artwork must be high-quality laser output (not photocopies). Tints are not acceptable; lettering must be of a reasonable size that would still be clearly legible upon reduction, and consistent within each figure and set of figures. Supply artwork at the intended size for printing.
- Final proof will also usually be sent to the author for checking. This stage is to be used only to correct errors that may have been introduced during the production process. Prompt return of the corrected proofs, preferably within a week of receipt, will minimize the risk of the paper being held over to a later issue.
- Each contributor will receive one complimentary copy of the journal issue in which his/her paper appears. Additional reprints and copies of the journal may be ordered against advance payments.
